Local Plan: Detailed Sites and Policies DPD

Duty to Cooperate Statement Addendum

April 2016
Cooperation Summaries

1.1 As set out in the Council’s Duty to Cooperate Statement (Dec 2015) a number of organisations (eleven under prescribed bodies and seven under neighbouring authorities) were formally consulted for a period of six weeks in regards to the DSPDPD on three occasions in 2015; ‘Issues and Options’ (reg.18) in January / February, ‘Pre-Publication’ (reg.18) in July / August, and ‘Proposed Submission’ (reg.19) in October / November. In addition to the organisations detailed previously, the following engagement also took place as part of the Duty to Cooperate.

Prescribed Bodies

2.1 Lee Valley Regional Park Authority

The Lee Valley Regional Park Authority (LVRPA) was formally consulted on three occasions in 2015 as part of the plan-making process, with further email exchanges taking place in July 2015 (see Appendix 1). Supportive comments received at the Issues and Options and Pre-publication stages have resulted in an amendment to the Policies Map and to the Council’s evidence base to clearly demarcate the LVRPA area within the Newham boundary, as part of greenspace considerations. Summaries and copies of consultation responses, can be found under separate cover in the Statement of Consultation document.

Neighbouring Planning Authorities

3.1 London Legacy Development Corporation

Further to the information set out in paragraph 5.9 of the Duty to Cooperate Statement (Dec 2015), in relation to the cooperation that has taken place between the Council and the London Legacy Development Corporation (LLDC), see the letter included in Appendix 2.
Hi Claire,

The sites list hasn’t been included in full in the new documents but is in the Issues & Options doc still up on our website, that provides the info against each GS site number. We are still working out how and if to present this information in final docs – apologies for any confusion.

As for new designations, de-designations, and boundary changes, the updated evidence base doc for greenspace explains any changes between I&O and now (starting at page 50) and the rationale used in the review overall (starting page 49).

It does not however categorise every change from the Core Strategy Proposals Map position to now, for that the only way to know is to compare the existing map, and the draft DPD map.

I think / hope that answers everything you asked – let me know if not!

Regards

Elizabeth Botfield | Planning Officer | Policy Team

I am currently preparing a response to the Pre-publication version of the Detailed Sites and Polices DPD. It would be helpful if I could speak to someone regarding the green space designations and the Council response to the Lee Valley Regional park Authority’s previous response.

Page 81 of the DSPDPD include a paragraph about Green Space – it states “In accordance with this objective, a number of new areas of green space are proposed for designation, a number have been de-designated, and a number have had boundaries redrawn. These can be found on the draft Local Plan Policies Map.”. I can see the green space notations on the draft Policies Map but I’m not sure how I can know where sites have been de-designated or boundaries changed. There are also a series of numbers associated with the green spaces – please could you confirm which document provides the key to these numbers.

In response to the Authority’s previous comments the Statement of Consultation states that “Reference to the PDF Proposals have been added for information; green space table to be amended as proposed. Map and Table have been amended.” Is this table and map part of the current consultation and if so where can I find it. Also where in the document is there reference to the PDF Proposals?

I look forward to hearing from you

Claire

Dear Stakeholders,

As someone with an interest in Newham’s Local Plan we would like to notify you of a public consultation running until **Friday 14th August**.

Having previously consulted on *Issues and Options*, we are now asking for opinions on the Pre-publication Draft of our *Detailed Sites & Polices DPD*. Also published as part of the consultation are an Integrated Impact Assessment, a Statement of Consultation, a Viability Report, an Options Appraisal document (which looks at the changes from Issues and Options to now), together with a number of updated Evidence Base documents.

All documents can be viewed at [www.newham.gov.uk/planningconsultations](http://www.newham.gov.uk/planningconsultations)

Any comments should be mailed to ldf@newham.gov.uk and clearly indicate which document or section is being referred to.

Best Regards,

The Policy Team

Dear Mikyla,

**Detailed Sites and Policies DPD**

I write further to the Examination of the LB Newham Detailed Sites and Policies DPD.

In your Duty to Cooperate Statement you say the following:

**London Legacy Development Corporation (LLDC) LBN officers met with the LLDC regularly throughout 2013 and 2014 during preparation of the LLDC Local Plan. Briefings on the DSPDPD were specifically given in May 2013 and January 2015. A meeting in March 2014 informed LBN’s town centre boundary review in regards the Stratford Town Centre which currently straddle two planning areas. No comments have been received throughout consultation**

I can confirm that this is accurate and that we consider that London Borough of Newham have fully engaged with the Legacy Corporation during the formation of this DPD and that there were no significant cross-boundary matters identified within the scope of this DPD requiring discussion outside of normal consultation procedures.

I can confirm that the regular cooperation framework that was in place for the preparation and adoption of the Legacy Corporations own Local Plan (adopted July 2015), have remained in place and facilitated ongoing engagement on a range of matters between the the Legacy Corporation and the Council. These arrangements are described in detail within the Legacy Corporations Duty to Cooperate Background Paper which can be found our website ([downloadable here](#)). I can confirm that it is also intended that these arrangements remain in place to facilitate any current and future cooperation of plan preparation and review by both authorities.

Yours faithfully

Alex Savine
Head of Planning Policy
