

What we know about fly-tipping

Tonnage

The tonnage figures below represent the weight of all the waste that is removed from the streets by the street cleansing teams, including fly-tips, street sweepings and public litter bins. These figures do not include household or commercial waste collected as part of the weekly bin schedules. The totals from April to March 15/16 and 16/17 are consistent, with a slight decrease in April 17-March 18.
