FMO5	Newham has a significant strategic role to play in delivering new homes to meet both the borough's and London's wider need for housing. As part of the London Plan (2021), Newham has been set a strategic housing target of 47,600 homes to deliver between 2019 and 2029. However, in the years preceding the Local Plan housing target, Newham has delivered a shortfall of housing delivery against this target. This has been a result of macro-economic factors such high interest rates and inflation as well as the time it has taken for the industry to adjust to new policy and legislative requirements (for example, around building safety).		230	Policy H1 Justification	Matter 2 – Q2.3	To acknowledge the historic shortfall in housing delivery

	A detailed review of each site allocation in the Local Plan suggests that delivery over the plan period is unlikely to meet the ambitious target set for the borough by the London Plan (2021) plus the borough's historic shortfall by 2028/29. Therefore, to respond to these factors the Local Plan seeks to propose a capacity-based target, via a stepped trajectory to reflect realistic delivery expectations. This target will incorporate the London Plan target until 2028/29, and over the longer-term Newham will make up our historic shortfall against the London Plan targets.				
FMO6	[3.174] The higher growth figures are dependent on significant infrastructure projects unlocking development sites and optimised housing delivery on comprehensively masterplanned site allocations.	230	Policy H1 Justification	Matter Q2.2(c)	Clarification on the different sources of higher capacity figures

FMO9	All proposals are expected to make efficient use of land available through the design-led process. Any Design and Access Statement should address all the boroughwide design guidance themes relevant to a 'transform', 'enhance' or 'conserve' character of the site – making reference to relevant sections of the Characterisation Study, demonstrating how they have been addressed and balanced to contribute towards a successful, well integrated, healthy and functional neighbourhood. Proposals on small sites and/or minor residential developments should also refer to the guidance provided through the Small Sites Intensification Guidance, as well as relevant London Plan guidance.	72	D3 Design-led Site Capacity Optimisation, implementation section D3.4, D3.5 and D3.6	Matter 3 Q3.3	Clarify implementation to refer to guidance prepared by the council and the GLA.

FMO11	The policies provide the vision, design and development principles for each neighbourhood, which will inform and guide development in each neighbourhood. The Newham Characterisation Study (2024) undertook an analysis of the borough and identified areas with a character suitable to transform, enhance or conserve. These are referenced in the neighbourhood policies where appropriate, and each character area should be developed following a design-led approach in accordance with policy D3.
