

**Dear Sir,**

**Following the session today 11 December this is the wording we proposed for N14 (Green Street):**

1) Neighbourhood Profile : add the word "affordable"

2) Vision (within first paragraph): "Queen's Market will continue to provide low-cost food and goods."

3) In Vision policy 4:

1.

"Queen's Market will be retained as an affordable, culturally significant, diverse, covered market. Redevelopment of Queen's Market or adjacent sites must not lead to the loss of low-cost food and goods, loss of stalls or shops, displacement of established traders, or the introduction of buildings that overshadow or compromise the market's microclimate, visibility, or character."

4) Add to TBZ2:

"Microclimate assessments must demonstrate no increase in downdrafts, wind tunnel effects, overshadowing, temperature loss or loss of shelter affecting market operations."

Thank you for your attention.

Best wishes,
