

Annual CIL Rate Summary 2026

The London Legacy Development Corporation (LLDC)

The transfer of powers from the London Legacy Development Corporation (LLDC)

Effective 1 December 2024, the London Borough of Newham (LBN) has assumed the responsibilities as the charging and collecting authority for the LLDC CIL area within Newham's boundaries. Additionally, LBN serves as the collecting authority for the Mayoral Community Infrastructure Levy (MCIL) within the LLDC area.

The year to which this annual CIL rate summary relates is the calendar year 2026¹, and is applicable to CIL liable development within the LLDC area of Newham.

LLDC established CIL2 charging schedule

The LLDC's CIL Charging Schedule (LLDC CIL2) came into effect on 1st July 2020. In order to respond to market conditions, the CIL is subject to annual indexation to reflect inflation. A specific index, which charging authorities must use, has been created for this purpose. More information is available on the [RICS website](#).

For LLDC CIL2 the index figure for the year in which the charging schedule took effect is **334** as per the Royal Institute of Chartered Surveyors' (RICS) CIL Index.

Table A on page 2 sets out the LLDC CIL2 rates as indexed for the calendar year 2026.

¹ In accordance with [Regulation 121C of the Community Infrastructure Levy Regulations 2010 \(as amended\)](#).

Calculation

Indexation is applied to the adopted [LLDC CIL2 Charging Schedule](#) rates using the formula set out in CIL Regulation 121C paragraph 2(e)(iii):

$$\frac{R \times I_y}{I_c}$$

Where: **R** is the relevant CIL rate from the adopted Charging Schedule.
 I_y is the index figure for the given calendar year.
 I_c is the index figure for the calendar year in which the Charging Schedule took effect.

2026 Index figure published by [RICS](#):

I_y = 400 for the given calendar year 2026

I_c = 334 the index figure for 2020 (when the LLDC CIL2 charging schedule took effect).

Interpretation of chargeable amount and Use Classes Order

The Collecting Authority applies the relevant legislation in effect for each chargeable development.

The Town and Country Planning (Use Classes) (Amendment) (England) Regulations 2020 (as amended) introduced Use Classes not identified within the Charging Authority's charging schedules and therefore the equivalent rates will be applied¹

¹ Pursuant to Regulation 4A of the Town and Country Planning (Use Classes) (Amendment) (England) Regulations 2020 (as amended). Further details may also be found in the Government's [Community Infrastructure Levy Guidance](#): 'How do changes to the Use Classes Order affect charging schedules that set differential rates according to use classes that no longer exist?' (Paragraph: 201 Reference ID: 25-201-20201116).
