

NEWHAM WEEKLY COVID-19 STATISTICS

Updated: 24th March for period 14th to 20th March

www.newham.gov.uk/coviddashboard

Vaccination: First doses given up to 21st March

90,125 first dose given (25% of population). Of these:

- Cohort 1: 239 to older residents in care (92%)
- Cohort 2: 5,033 to 80+ (91.5%)
- Cohort 3: 8,507 to 75+ years (80%)
- Cohort 4: 14,128 to 70+ (80%) and 23,877 to CEV (72%)
- 74,418 to under 70 years
- 4,597 to frontline health and social care workforce

WHAT DOES THIS MEAN?

The number of new Covid-19 cases continues to fall (by 11%) to 145. Positivity has remained at 1.0% while testing has fallen slightly. 90,125 first dose vaccines have been given – an increase by over 12,000 since last week.

With potentially fewer vaccines available next month, it's vital that everyone currently eligible takes up a vaccine when offered; getting vaccinated protects the whole community and not just themselves.

Community transmission of Covid-19 still remains a risk so please continue to:

- Wear a face mask when going to shops or other indoor places.
- Ensure you isolate if you have symptoms, test positive or are a contact. Support is available.
- Test yourself regularly if you leave the house for work or caring.

Jason Strelitz
Director of Public Health
London Borough of Newham
