If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

- The current facilities are inadequate and fail to meet the day-to-day requirements of our community. The limitations of the existing structure hinder our ability to serve our members effectively. The existing facilities are too small to cater to the needs of all worshippers, particularly women and children. This lack of space restricts participation and inclusivity within our community.

- It is imperative that the size of any proposed replacement facility be driven by the actual needs and demands of our community. Retaining the same size as the existing facility would not address the current inadequacies and would ultimately fail to meet the growing needs of our congregation.

- Due to the inadequacies of the existing facility, many worshippers are compelled to seek alternative locations for their religious practices. This situation is not conducive to fostering a strong community spirit.

- Newham is a borough that values diversity; however, it has not succeeded in incorporating diverse infrastructure in the upcoming draft proposal.

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Our community is keen to work with landowners and relevant authorities to create a new facility that meets our needs. We believe that by working together, we can find a solution that benefits everyone involved. In addition, we would like to address the inflexibility of the current policy regarding the size of facilities.

We strongly advocate for a needs assessment to be conducted, as the current policy does not adequately reflect the dynamic requirements of our community. There is a lack of purpose-built facilities for individuals with disabilities, which would help the socially isolated elderly population connect with others.

The draft proposal does not fully utilize the land's potential for much-needed housing, along with larger community facilities, as seen in other parts of London and across the country outside of LBN. Privately owned land has been acquired to meet the future needs of the community.
