If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

- The current facilities are insufficient and fail to meet our community's daily needs. The limitations of the existing structure impede our ability to effectively serve our members. The current space is too small to accommodate all worshippers, especially women and children. This lack of space limits participation and inclusivity within our community.
- It is crucial that any new facility be sized according to the actual needs and demands of our community. Maintaining the same size as the existing facility would not resolve the current deficiencies and would not meet the growing needs of our congregation.
- Due to the inadequacies of the current facility, many worshippers are forced to seek alternative locations for their religious practices. This situation hinders the development of a strong community spirit. This impacts our setting with more people coming through to our centres and mosques.
- Newham is a diverse borough, yet the upcoming draft proposal has not succeeded in integrating diverse infrastructure.
- A replacement facility must be larger and better suited to a growing congregation; we strongly advocate for a needs assessment to be conducted. As the current policy is inadequately suited.

(Continue on a separate sheet /expand box if necessary)

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

- Our community is keen to work with landowners and relevant authorities to develop a replacement facility that addresses our needs. We believe that collaboration can lead to a solution that benefits everyone involved.
- We would also like to address the rigidity of the current policy concerning facility size. We strongly recommend conducting a needs assessment, as the existing policy does not adequately reflect our community's evolving requirements.
- There is a lack of facilities designed specifically for individuals with disabilities, which would help socially isolated elderly individuals connect with others. The draft proposal does not fully leverage the land's potential for essential housing and larger community facilities, as seen in other areas of London and beyond. Privately-owned land has been acquired to address the future needs of the community.
- The site will contribute to economic growth in the construction sector and provide local job opportunities. However, the proposed key route has not been thoroughly considered to align with housing and economic growth potential.
- Our community is keen and enthusiastic to collaborate with the landowners and relevant authorities to deliver a replacement facility that not only caters for our needs, but the wider community.
- Work with the land owner and change local plan for purpose-built Mosque and much needed Housing.
- Object everything on private land use policy including key route which will hinder future community development.
- Work with land owner for solution who are working for community interest
