Privacy Notice

Who we are

London Borough of Newham (LBN) is registered with the Information Commissioner's Office (ICO) as a 'Data Controller' This privacy notice applies to you ('the service user') and LBN ('the Council'). The Council takes the privacy of your information very seriously.

This privacy notice relates to our functions relating to the Newham Local Plan Review Consultation (Regulation 19). It also provides additional information that specifically relates to this particular consultation, and should be read together with our [general privacy notice](#), which provides further detail.

What data do we collect and process

We collect your name, contact details, email address, job title and organisation if applicable and demographic equalities data if you choose to share it.

Why we collect your data

The consultation is a requirement of the Town and Country Planning (Local Planning) (England) Regulations 2012. We collect your data so that we can get your views on the legal compliance or soundness of the Local Plan, as well as its compliance with the duty to co-operate.

The lawful basis for processing your data

The lawful basis we use to process your data as set out in UK data protection legislation is:

Article 6 (a) Consent: the individual has given clear consent for us to process their personal data for a specific purpose.

Article 9 (a) Explicit Consent: the data subject has given explicit consent to the processing of those personal data for one or more specified purposes.

We will only process personal data where we have consent to do so, and you can withdraw your consent at any time. By submitting your personal data in the response form you are consenting for us to process your data and/or consenting to be added to the database. If added to the database, they can be removed upon request.

You can withdraw your consent at any time.

How we use your data

This data is collected, collated and then submitted to the Secretary of State, who will appoint an Inspector to conduct an independent examination of the Local Plan. Demographic data will be processed anonymously to assess the effectiveness of our consultation.

Where you have consented, your contact details will be added to our consultation database for future consultations and updates on the Examination in Public.

At submission representations will be made public on the council's website, including name of person and organisation if applicable making representation. Other personal information will remain confidential.

Representations, in full, submitted along with the Local Plan, evidence base and documents Submission Draft Newham required by legislation to the Planning Inspectorate and to the person the Secretary of State appoints as the Planning Inspector. Contact details will be made available to the Inspector and Programme Officer so they can contact individuals to participate in the Examination.

Consultation database is stored on Mailchimp and accessed by planning policy team only. Mailchimp stores names and email addresses of those on the consultation database in line with Mailchimp policies, particularly its [data processing addendum](#). Please be aware they may store personal data external to the UK specifically in the USA and/or EU.

Who we will share your data with

We will only share your data with the Planning Inspector appointed by the Secretary of State, the Programme Officer appointed by Newham, and within the planning policy team. Your name and organisation (if applicable) will be published on our website along with representations upon submission. Demographic data is not shared with the Planning Inspector or the Programme Officer.

We will not share your personal information with any other third parties unless you have specifically asked us to, or if we have a legal obligation to do so.

How long we will keep your data

We will keep your data safe and secure for a period of 15 year(s) in line with our retention Schedule. After this time, it will be securely destroyed.

How do we protect your data

We comply with all laws concerning the protection of personal information and have security measures in place to reduce the risk of theft, loss, destruction, misuse or inappropriate disclosure of information. Staff access to information is provided on a need-to-know basis and we have access controls in place to help with this.

See the [Planning Inspectorate Customer Privacy Notice](#) for details on how they keep your data safe and secure.

Know your rights

We process your data in accordance with the UK General Data Protection Regulation (UK GDPR) and the Data Protection Act 2018. Find out about your rights at [Your rights – Processing personal data privacy notice – Newham Council](#) or at <https://ico.org.uk/your-data-matters/> If you have any queries or concerns relating to data protection matters, please email: dpo@newham.gov.uk

Draft Policy BFN3 requires major development, and proposals where potential health or social value issues are likely to arise, to undertake a screening assessment as early as possible in the development process, to determine whether a Social Value and Health Impact Assessment (SV-HIA) is required.

NHSPS welcomes and supports the inclusion of policies that support healthy lifestyles, and the requirement for the SV-HIA screening and assessment.

There is a well-established connection between planning and health, and the planning system has an important role in creating healthy communities. The planning system is critical not only to the provision of improved health services and infrastructure by enabling health providers to meet changing healthcare needs, but also to addressing the wider determinants of health.

NHSPS therefore considers Policy BFN3 positively prepared and effective, and therefore sound.

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

NHSPS considers Policy BFN3 sound as currently drafted.

(Continue on a separate sheet /expand box if necessary)

Please note In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

7. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?

☒

No, I do not wish to participate in hearing session(s)

☐

Yes, I wish to participate in hearing session(s)

Please note that while this will provide an initial indication of your wish to participate in hearing session(s), you may be asked at a later point to confirm your request to participate.

8. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:

N/A

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate in hearing session(s). You may be asked to confirm your wish to participate when the Inspector has identified the matters and issues for examination.

Draft Policy BNF4 states that development will be required to as necessary, enter into Section 106 agreements to provide affordable housing and any other requirements to mitigate impacts arising.

Whilst we consider Policy BNF4 to be sound as currently drafted, we request that the Council continue its engagement with the NHS ICB to further refine the identified healthcare needs and proposed solutions to support the level of growth proposed by the Local Plan, as identified in the IDP, prior to submission. Further comments on IDP are provided below.

Healthcare providers should have flexibility in determining the most appropriate means of meeting the relevant healthcare needs arising from a new development. Where new developments create a demand for health services that cannot be supported by incremental extension or internal modification of existing facilities, this means the provision of new purpose-built healthcare infrastructure will be required to provide sustainable health services. Options should enable financial contributions, new-on-site healthcare infrastructure, free land/infrastructure/property, or a combination of these. It should be clarified that the NHS and its partners will need to work with the council in the formulation of appropriate mitigation measures.

Comments on the IDP

The provision of adequate healthcare infrastructure is in our view critical to the delivery of sustainable development. A sound IDP must include sufficient detail to provide clarity around the healthcare infrastructure required to the level of growth proposed by the Plan, and to ensure that both planning obligations and the capital allocation process for the Community Infrastructure Levy (CIL) effectively support and result in capital funding towards delivery of the required infrastructure.

We welcome identification in the IDP of major health facilities projects.

We recommend that the Council add further detail to the approach regarding primary healthcare provision to ensure that the assessment of existing healthcare infrastructure is robust, and the mitigation options secured align with NHS requirements. We suggest the following process (set out in red text below) for determining the appropriate form of contribution for the provision of healthcare infrastructure associated with new development is included in the IDP:

The requirement for a contribution towards healthcare infrastructure from new development will be determined by working with the ICB and other key stakeholders as appropriate, in accordance with the following process:

- *Assessing the level and type of demand generated by the proposal.*
- *Working with the ICB to understand the capacity of existing healthcare infrastructure and the likely impact of the proposals on healthcare infrastructure capacity in the locality.*
- *Identifying appropriate options to increase capacity to accommodate the additional service requirements and the associated capital costs of delivery.*
- *Identifying the appropriate form of developer contributions.*

Draft Policy SI1 seeks to protect existing community facilities. NHSPS supports the provision of sufficient, quality community facilities and welcomes the proposed policy approach which is considered to be positively prepared or effective in its current form, and will ensure the NHS has the ability to ensure the delivery of essential facilities and services for the community.

The NHS requires flexibility with regards to the use of its estate to deliver its core objective of enabling excellent patient care and support key healthcare strategies such as the NHS Long Term Plan. In particular, the disposal of sites and properties which are redundant or no longer suitable for healthcare for best value (open market value) is a critical component in helping to fund new or improved services within a local area.

All NHS land disposals must follow a rigorous process to ensure that levels of healthcare service provision in the locality of disposals are maintained or enhanced, and proceeds from land sales are re-invested in the provision of healthcare services locally and nationally. The decision about whether a property is surplus to NHS requirements is made by local health commissioners and NHS England. Sites can only be disposed of once the operational health requirement has ceased. This does not mean that the healthcare services are no longer needed in the area, rather it means that there are alternative provisions that are being invested in to modernise services.

Where it can be demonstrated that health facilities are surplus to requirements or will be changed as part of wider NHS estate reorganisation and service transformation programmes, it should be accepted that a facility is neither needed nor viable for its current use, and policies within the Local Plan should support the principle of alternative uses for NHS sites with no requirement for retention of a community facility use on the land or submission of onerous information. NHSPS welcomes the wording of Policy SI1 Part 1 which requires compliance with criteria (a) or (b), and (c). Where healthcare facilities are formally declared surplus to the operational healthcare requirements of the NHS as part of a published estates strategy or service transformation plan, we consider this would satisfy Policy SI1 Part 1(b)(iii) and therefore no other sub-criteria listed under Part 1(a) or (b) would be required to be satisfied. This ensures the NHS has the ability to ensure the delivery of essential facilities and services for the community.

NHSPS therefore considers Policy SI1 positively prepared and effective, and therefore sound.

6. Draft Policy H3 sets out the Council approach to affordable housing. If the Council intends to prepare any additional guidance to inform detailed delivery of this policy and as part of future Local Plan reviews, we suggest the Council consider the need for affordable housing for NHS staff and those employed by other health and care providers in the local authority area. The sustainability of the NHS is largely dependent on the recruitment and retention of its workforce. Most NHS staff need to be anchored at a specific workplace or within a specific geography to carry out their role. When staff cannot afford to rent or purchase suitable accommodation within reasonable proximity to their workplace, this has an impact on the ability of the NHS to recruit and retain staff.

Housing affordability and availability can play a significant role in determining people's choices about where they work, and even the career paths they choose to follow. As the population grows in areas of new housing development, additional health services are required, meaning the NHS must grow its workforce to adequately serve population growth. Ensuring that NHS staff have access to suitable housing at an affordable price within reasonable commuting distance of the communities they serve is an important factor in supporting the delivery of high-quality local healthcare services. We recommend that the Council:

- Engage with local NHS partners such as the local Integrated Care Board (ICB), NHS Trusts and other relevant Integrated Care System (ICS) partners.
- Ensure that the local need for affordable housing for NHS staff is factored into future housing needs assessments, and any other relevant evidence base studies that inform the any future detailed guidance on the Local Plan or as part of future Local Plan reviews (for example employment or other economic policies).
- Consider site selection and site allocation policies in relation to any identified need for affordable housing for NHS staff, particularly where sites are near large healthcare employers.

Whilst NHSPS considers Policy H3 to be sound as currently drafted, we would be grateful for consideration of the above in any additional guidance to inform detailed delivery of this policy and as part of future Local Plan reviews.

Draft Policy CE2 states new development should be designed and constructed to be Net Zero Carbon in operation. The NHS requires all new development projects to be net zero carbon, and NHSPS fully support policies that promote carbon neutral development. In considering the implementation of policies related to net zero, we would highlight that NHS property could benefit from carbon offset funds collected where on-site carbon mitigation requirements cannot be met. This would support the NHS to reach the goal of becoming the world's first net zero healthcare provider.

NHSPS therefore considers Policy CE2 positively prepared and effective, and therefore sound.
